PROFESSIONAL SUMMARY

- Experienced Java Application Developer with over 3 years of expertise in building scalable and robust applications.
- Proven ability to lead software development initiatives, optimize large-scale systems, and deliver high-quality solutions using Java, Spring Boot, and modern development practices.
- Certified Oracle Java SE 11 Professional with a strong background in microservices, CI/CD pipelines, and containerization technologies.

WORK EXPERIENCE

Senior Software Engineer
LTIMindtree • Bengaluru, India

Oct 2024 - Present

Client: Citi - Americas / Europe / Asia Pacific

- Developed new features and microservices using **Java** and **Spring Boot**, enhancing system modularity and scalability.
- Strengthened security measures for an IAM product, improving its security posture.
- Conducted code reviews and knowledge transfer sessions to maintain high-quality standards and mentor junior developers.
- Collaborated with vendors and reviewed BRDs for client onboarding.

Software Engineer
LTIMindtree (formerly LTI - Larsen & Toubro Infotech) • Bengaluru, India

Dec 2021 - Oct 2024

Client: Citi - North America

- Migrated and optimized monoliths and microservices built using **Java** and **Spring** for an in-house IAM product.
- Integrated **Apache Kafka** to enhance data throughput by 90%.
- Reduced deployment cycle times by 20% through CI/CD pipelines with **Bitbucket**, **Jenkins**, and **OpenShift**.
- Ensured system scalability by implementing **Docker** and **Kubernetes**.
- Provided L1 support, resolving 50+ incidents monthly with a 90% first-call resolution rate.
- Identified and addressed bottlenecks, improving system response times by 10%.

Graduate Engineer Trainee
LTIMindtree (formerly LTI - Larsen & Toubro Infotech) • Mumbai, India

Aug 2021 - Dec 2021

- Completed a bootcamp on enterprise application development using Angular and Spring Boot.
- Led the "General Insurance" project, recognized as the **Best Project Team of FY 2022**.

Intern

Ardelis Technologies • Mangaluru, India

Aug 2020 - Aug 2021

- Developed dashboards and microservices using **Vue.js** and **Flask**.
- Revamped the company's website, improving its usability and visual appeal.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

St. Joseph Engineering College • Mangaluru, India

Jul 2017 - Jun 2021

Grade: 7.74 CGPA

Activities:

- TEDx SJEC - Curator
- IEEE SJEC Student Chapter - Member
- Delta DevOps - Developer

SKILLS

- **Programming Languages:** Java 8/11/17, SQL, Python3, Javascript
- **Frameworks:** Spring Boot, Hibernate, Angular, Vue.js, Flask, Flask-SQLAlchemy
- **Build Tools:** Apache Maven
- **Databases:** SQLite, PostgreSQL, Oracle, MongoDB
- **CI/CD Tools:** Jenkins, GitHub, Bitbucket
- **Message Queues:** Apache Kafka
- **Containerization and Deployment:** Docker, Kubernetes, Redhat Openshift
- **Version Control:** Git

PROFESSIONAL CREDENTIALS

- Microsoft Technology Associate – JavaScript
- Oracle Certified Professional – Java SE 11 Developer
- Oracle Cloud Infrastructure Developer

AWARDS AND HONOURS

Best Project Team of FY 2022 (LTIMindtree)

2021

Spot Award – Team Player (LTIMindtree)

2024
